

MindBridge AI™: Transforming internal controls and audit with data-driven risk discovery

Empowering audit and finance professionals with AI innovation

Who is MindBridge AI™?

Financial integrity is the cornerstone of your organization. Efficiency, growth, and investment all hinge on the accuracy and quality of your numbers. The challenge is ensuring exactly that and communicating the work in a way that everyone can understand.

MindBridge AI is a global leader in financial risk discovery and anomaly detection that delivers a better way to work by identifying, surfacing, and analyzing risk across broad financial and operational datasets.

The MindBridge AI platform consists of a series of purpose built risk and anomaly detection products that include General Ledger, Company Card, Payroll, Revenue, and Vendor Invoice Risk Analytics. MindBridge AI combines audit and finance expertise with data science and AI ingenuity to support professional judgment and serve the human need for financial and operational transparency.

MindBridge AI's patented product uses a unique set of anomaly detection and exposure techniques to build trust in your numbers and reduce uncertainty by providing key insights into your data.

As the volume and variety of data grows, MindBridge AI is the only solution that can scale for hundreds of millions of transactions with greater analytics performance and responsiveness, turning data into useful information for quicker decision making.

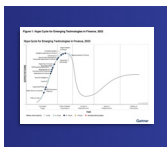

The value of MindBridge AI

MindBridge is an AI-powered risk discovery product designed for auditors, risk and financial professionals and used by Fortune 500 companies and top CPA firms.

How MindBridge AI delivers real value:

- **Enhances client control frameworks:** More efficiently evaluate the effectiveness of company controls. Scope, identify, and test areas of risk with increased depth to drive a tailored and streamlined process using MindBridge AI's 650+ intelligent controls.
- **Enables quantitative-led decision making:** Data-driven decision making focuses you on what matters, with organizations realizing up to 75% in time savings and attaining higher quality results.
- **Safeguards your organization's financial integrity:** Manual processes increase the likelihood of accounting mistakes. MindBridge AI detects areas of concern and risk across ledgers, departments, and even subsidiaries in order to allocate time and resources where needed.

Gartner

MindBridge named in 2023 Gartner® Hype Cycle™ for Emerging Technologies in Finance

This 10-year outlook predicts the most relevant technology, data, and process trends to prepare financial services leaders to manage people and machines collaboratively.

How does it work?

The world’s most advanced AI-powered anomaly and risk discovery product for audit, risk and financial professionals

With the MindBridge AI platform, your team can test 100% of transactions and become more efficient at spotting anomalies and understanding their risks.

The product uses business rules, statistical models, and machine learning to automatically score risks across all transactions in a data set. It then displays results in an intuitive dashboard.

With a confident, complete view into their data business professionals are empowered to make better, more informed decisions.

Anomaly & risk analytics for your lifestyle

-  SaaS/Cloud Agile Delivery
-  AI-driven Automated Analysis
-  Audited, Reliable, and Explainable Algorithms
-  Advanced Intelligence for Greater Insights
-  Rapid Risk Scoring and Relevance
-  Flexible Data Integration and Deployment
-  API for Automation and Systems Integration

How MindBridge AI is different from other solutions

Unmatched depth & breadth of analysis:
No other solution analyzes 100% of your data within hours using AI, statistics and rules in parallel with full drill-down and explainability; providing full confidence in the insights provided.

Broad applicability and flexibility:
Analyze almost any financial or operational dataset to gain a holistic view of your business processes.

Actionable insights right “out of the box”:
The MindBridge AI platform and products allows quick time to value with a risk-focused analysis of your data and no coding needed. Operationalize your audit and financial risk detection to avoid errors in your transaction flow.

Artificial Intelligence Excellence Award 2022	Type 2 SOC 2 & 3	World leading AI audit by	ISO 27001, 27017, 27018 certified	Recognized AI technology
				

What kind of problems does MindBridge AI solve?

MindBridge AI solves business problems across your organization with purpose-built products.

Forge your path based on the risks and insights found in each area. Start with your highest priority area, or take a consolidated view with General Ledger analytics.

"We are using MindBridge across a number of different finance requirements including risk analysis of our general ledger, receivables, payables, payroll, and vendor analytics, and we expect to roll out additional MindBridge use cases in the coming months."

- Ryan Mitchell
Finance Digital Delivery Manager, Chevron

General Ledger: Holistic view of your organization. Let MindBridge AI identify anomalies and unusual patterns in the areas you should focus on.

Company Card: Uncover anomalies, spot trends, and safeguard company card transactions.

Payroll: Reduce potential financial loss associated with inaccurate or fraudulent payroll allocation.

Revenue: Assess your revenue recognition risk, and surface unusual activity across financial operations.

Vendors: Reinforce accuracy and minimize financial loss from processing errors or undetected malicious intent.

Unprecedented ease of use and scale

MindBridge AI is one of the fastest growing FinTech's with **4X** year over year growth

Over **100B** data points analyzed, using over **45** algorithms with Ensemble AI for unique analysis

>16,000 organizations data financials have been processed through MindBridge AI
